Precautions: Do not exceed the stated daily dose. Food supplements are not a substitute for a varied diet. Keep out of the reach of young children. If you are pregnant or breastfeeding, consult a healthcare practitioner before using this product.

Store in a cool, dry place. Do not freeze or place the product in direct sunlight for extended periods of time.

Note: Sachets may expand as latent air from the filling process tends to expand over time. This does not affect the quality of the product.

Directions: As a food supplement, take one sachet 1-2 times per day. For best results, snip or tear the notched end off the sachet, squeeze into 30-60 mL of filtered or spring water, or your favourite cool beverage, and drink on an empty stomach, at least 15 minutes before eating. Contents of sachet will not dissolve.
