PBM WING

Whole-body Photobiomodulation Panel

Whole-body PBM Panel

(PBM_Wing)

Specification

Device: Whole-body PBM Panel

Model: PBM_Wing

Wavelengths: 940nm, 850nm, 810nm, 660nm, 520nm

Irradiance: 40~90mW/cm² (0.04~.09W), Aluminum used for spectral irradiance

Power: AC 110~240V/ 50Hz~60Hz / 2 kVA

Weight: 140 kg 308 lbs

Size: 220cm (L) x 106cm (H) x 90cm (W)

Frequency settings: 8 Levels of Nogier Frequency settings

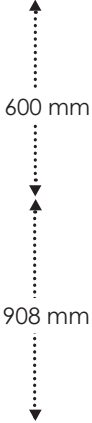

Operating range of the lift: 600mm

Panel rotation range: 180 degrees

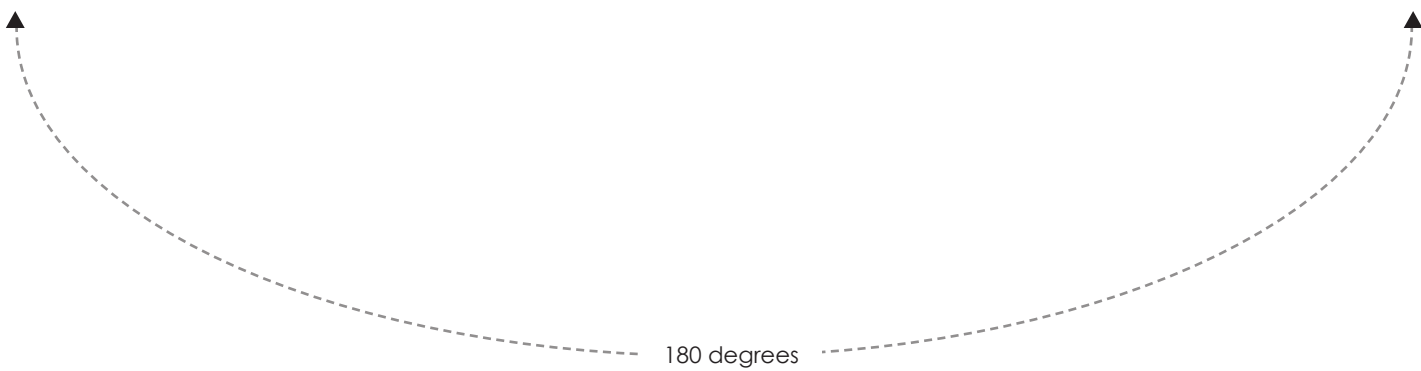

Total LEDs: 17,280

Wow is the impression you'll get everytime

Not only with the look, but especially with the performance.
Meticulously engineered effective diodes combined in its optimal treatment effect.
Class is never compromised.

someone sees Hue Light's PBM Wing

Versatile to fit to your daily lifestyle

While you are waking up start your day, you can easily include PBM wing as a part of your daily routine. While you are exercising, watching a TV, and/or eating your meal, place the PBM wing at an angle of your preference to enjoy the PBM therapy.

Hue Light

Aesthetic Design

to *elevate* your space

Hue Light's whole-body PBM Panel (PBM Wing) is made with high-quality finish, so it would fit to any styled homes. The attention to every detail in its finish and its performance would allow your space to feel much elevated. Moreover, Hue Light's advanced technology offers guaranteed treatment effect.

Powerful yet safe

wellness care solution for your animals

Whole-body PBM Panel is a perfectly sized to offer whole-body PBM therapy for the horses. Photobiomodulation therapy can be helpful for lessening tension and relieving pain. In addition, it is helpful for quickly recovering inflammatory wounds. Daily 30-60 minute PBM therapy to the equestrian horses exposed to long day of hard training would be essential to maintain its optimal condition for the race and/or the performance.
